BANANACoin LOUNGE ZONE AT BLOCKSHOW:

You are invited!

BananaCoin is happy to invite you to meet and ask all the questions you got for the founder of the project Alexander Bychkov. Join us in our private lounge area at the BlockShow Asia & Crypto Friends afterparty 6:30 pm to 1:00 am. And yes, you can ask anything.

“

All the afterparty crowd will be on the rooftop. And to the sound of music you can have an informal talk with other conference participants and enjoy the weather outside in case if you have travelled from a colder region.

See how do bananas — read ROI — grow, watch a video of the drone flying over the plantation, learn the impressions of the first BananaCoin investors who got to see the plantations last weekend — and all of these is in a chill and comfortable

lounge room with a canape in you plate, drink in your hand and truly breathtaking panoramic view of Singapore. Together we can go upstairs and learn all the business plan details of the most Eco ICO development of the year.
